## Background Information

Mr. Bodine's roofing and waterproofing consultation experience began 1976 at the Architect of the Capital. His experience in the roofing/waterproofing industry while employed with major national consulting firms, includes investigation/evaluation, design, construction document preparation and maintenance services involving millions of square feet of roofing area. His consulting experience spans a range of building types, including high-rise to single-story.

For over nineteen (19) years, Cris has provided building Owners and managers with roofing consultation services. Projects have included shopping centers, schools, restaurants, apartments, condominiums, manufacturing facilities, among others. Additionally, Cris has provided roofing consultation services to various property management firms, the Navy, Air Force, General Services Administration, City of Rockville, Maryland, developers and many more.

In 1990, Cris underwent an extensive and thorough examination process by the Roofing Consultants Institute (RCI) to become a Registered Roof Consultant (RRC). Cris became one, of very few, in the United States to achieve this recognition.

Cris's expertise has been provided on hundreds of projects from the east to the west coast. As a result of his experience and training, Cris has been an admitted expert in numerous litigation support cases.
